Art Unit: 3679

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

*Claim Rejections - 35 USC § 112*

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-7, 9-16 & 25-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant has not pointed out where the following limitations are supported, nor does there appear to be a written description of the limitations in the application as originally filed:

- a. Claim 1, line 2: "an elongate annular body"
- b. Claim 1 line 8: "[a second set of ] interstices" in addition to the interstices recited in line 6.
- c. Claim 1, line 8: "elongate interstices"
- d. Claim 1, line 9: "said filler material also extends lengthwise through the shaft"
- e. Claim 9, line 4: "said lobes are elongate"

Art Unit: 3679

- f. Claim 9, lines 6 & 7: "said filler also extends in the lengthwise direction between said elongate lobes"
- g. Claims 25, 26, 28 & 30: all limitations therein
- h. Claim 27: "each ply extends about a respective lobe and defines a portion of at least two ribs and an arcuate section of said annular body"
- i. Claim 29, lines 10 & 11: "each ply extends along and defines a portion of at least two ribs and an arcuate section of said annular body"

*Conclusion*

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Art Unit: 3679

5. As required under MPEP 2163.06, new matter limitations have been considered in making rejections based on prior art. Therefore, applicant should **not** presume the absence of a prior art rejection with regard to claims 1-7, 9-16 & 25-31 is an indication that these claims would be allowable if rewritten to overcome the rejections under 35 USC 112.
